

EU Quality Management System Certificate

Certificate no.:
C779133

Initial certification date:
11 March 2026

Valid Until:
10 March 2031

This is to certify that the quality system of

KAUL-Medizintechnik GmbH

Königsberger Straße 40, Dierdorf, DE 56269

SRN: DE-MF-000009240

For design, production, and final product inspection/testing of:

Sterile and Non Sterile Orthopedic Implants

Has been assessed and found to comply with respect to:

The conformity assessment procedure described in Annex IX, (Chapter I & III) of Regulation (EU) 2017/745 on Medical Devices

Jurisdiction

Application of Regulation 2017/745 on medical devices, implemented in Norway by Act 7 May 2020 no. 37 on medical devices and Regulation 9 May 2021 no.1476 on medical devices by the Norwegian Ministry of Health and Care Services.

Certificate history:

Revision	Description	Report No.	Issue Date
0.0	Original Certificate	3339591, 3339590	11 March 2026
1.0	Extension in Scope	3548064	29 May 2026

Products covered by this Certificate:

Product Description (and intended purpose for class IIb)	Product Name	Class*
Components of Knee arthroscopy system (sterile)	<ul style="list-style-type: none">KR-2 Naked ButtonKR-2 Loop Button	IIb

Place and date:
Høvik, 29.05.2026

For the issuing office:
DNV Product Assurance AS – Notified Body 2460
Veritasveien 1, 1363 Høvik, Norway

Menaka Singh
Management Representative

<p>Components of Knee Arthroscopy System is indicated for used in the surgical procedures related to the Knee Ligament/Tendon and meniscus fixation.</p>	<ul style="list-style-type: none"> • KR-2 Button Extender • KR-2 No-Button Adjustable Loop • KR-2 Concave Button • KR-2 PEEK CF Interference Screw • KR-2 PEEK OPTIMA Interference Screw • KR-2 Titanium Interference Screw • KT Ligament Staple • KR-2 K-Meni Inside-Out Meniscal Repair Needle • KR-2 K-Fix All-Inside Meniscal Repair • KR-6 K-Braid Sutures • KR-6 K-Braid Suture Tape • KR-6 K-Braid Infinity Loop Needle

* Class III and class IIb devices referred to in the second subparagraph of Article 52(4): Technical documentation assessment is covered by a separate EU Technical Documentation Assessment Certificate No.: Not Applicable

Certificate no.: C779133
Place and date: Høvik, 29 May 2026

The complete list of devices is filed with the Notified Body

Sites covered by this certificate

Site Name	Address
KAUL-Medizintechnik GmbH	Königsberger Straße 40, Dierdorf, DE 56269

Terms and conditions

The certificate is subject to the following terms and conditions:

- Any producer (see 2001/95/EC for a precise definition) is liable for damage caused by a defect in his product(s), in accordance with directive 85/374/EEC, as amended, concerning liability of defective products.
- The certificate is only valid for the products and/or manufacturing premises listed above.
- The Manufacturer shall fulfil the obligations arising out of the quality system as approved and uphold it so that it remains adequate and efficient.
- The Manufacturer shall inform the Notified Body of any intended updating of the quality system and the Notified Body will assess the changes and decide if the certificate remains valid.
- Periodical audits will be held, in order to verify that the Manufacturer maintains and applies the quality system. Notified Body reserves the right, on a spot basis or based on suspicion, to pay unannounced visits.
- For the class III devices and IIb devices falling under Article 52 (4) covered this certificate is dependent on the continued validity of the EU Technical Documentation Assessment Certificate, covering the devices.

The following may render this Certificate invalid:

- Changes in the quality system affecting production.
- Periodical audits not held within the allowed time window

Specific conditions - Class I devices, Systems and Procedure Packs:

- For class I device being placed on the market in a sterile condition, Class I devices with a measurement function and class I devices being reusable surgical instruments covered by this certificate the audit by the notified body of the quality management system was limited to the aspects required under article 52(7) of the regulation.
- For system and procedure packs being placed on the market in a sterile condition, covered by this certificate the audit by the notified body of the quality management system was limited to the aspects required under article 22(3) of the regulation.
- For Custom Made Class III implantable device the certification only relates to the Quality management system. Technical documentation assessment and issuance of EU Technical Documentation Assessment Certificate does not apply.
